A GUIDED ONBOARDING EXPERIENCE.

Let Our Specialists Help You Get the Most Out of Google Workspace for Education Plus.

Google Workspace for Education Plus is a comprehensive solution for academic institutions. Its advanced features, enhanced security and expanded analytics can transform the way administrators, educators and students create, communicate and collaborate. However, the technology is only as effective as your technical staff's ability to operate and manage it.

Changes and updates are frequently made to improve the user experience, and it can be a challenge to keep track of what's new and reconfigure the Google Admin console when you don't understand the ins and outs of your domain. CDW Education can help you deepen your understanding and increase the effectiveness of your Google Workspace for Education Plus edition through our Guided Onboarding services.

When your institution participates in Standard or Premium Guided Onboarding, not only do our Onboarding Specialists assist you in evaluating your existing Education Plus settings and provide recommendations for organization-wide implementation, but you also receive access to the following:

	STANDARD ONBOARDING	PREMIUM ONBOARDING
8-Week Guided Onboarding Course	X	X
Weekly Office Hours with Onboarding Specialists	X	X
