

# STRATEGICALLY MANAGE YOUR GOOGLE WORKSPACE FOR HIGHER EDUCATION DOMAIN

Colleges and universities have complex digital infrastructures that require flexible, reliable and safe solutions with efficient internal operations, ample storage availability, compliant security policies, dynamic instructional practices, effective device management strategies and more. CDW Education offers a wide range of services that can support your Google Workspace for Higher Education domain.

## Our Partners

Institutions of higher education are hubs for research and innovation that prepare students to impact the global economy, so the need for a sound digital infrastructure is a top priority. Google Workspace for Education is a suite of Google tools tailored for institutions to make instruction more efficient, elevate the student experience, and keep information and data secure. Google Workspace  
for Education

To stay connected, institutions of higher education need a reliable communication system. Stationary telephones won't cut it in a cloud-based network where professors and students can work from anywhere. Google Voice is an intelligently optimized, secure and compliant option that fits seamlessly into your Google Workspace for Education workflow. [Learn more.](#)

Google Voice

Google for Education regularly makes changes and updates to Workspace that can be difficult to keep up with. With the help of experts, institutions of higher education can work proactively to avoid any major issues in the Google Admin console. The Google for Higher Education Audit analyzes your college or university's existing configurations for domain operations, core services, device management and security to provide a report of recommendations that drive adoption, mitigate Drive capacity concerns and fulfill cybersecurity insurance requirements. [Learn more.](#)

Google Workspace  
for Education  
Audit

When network errors, misaligned settings, security breaches, app degradations and other challenges present themselves, institutions of higher education need to know they are making the right decisions for their Google Workspace for Education domain.

Amplified Support for Google for Higher Education partners staff with Google IT Specialists, who work exclusively in the Google Admin console, for on-demand support and customized solutions throughout the year.

Support Stacks are brief, predefined engagements with Google IT Specialists designed to provide clear deliverables that solve common domain challenges. [Learn more.](#)
